PROFESSIONAL SUMMARY

Detail-oriented B.Tech Computer Science graduate with hands-on experience in MIS and finance data operations within a university environment. Proficient in Advanced Excel, SQL, data validation, and reporting, with a strong ability to manage structured data and resolve discrepancies efficiently. Experienced in supporting system-based operations and maintaining data accuracy. Currently enhancing skills in Python and Power BI, eager to contribute technical and problem-solving abilities in a dynamic professional environment.

TECHNICAL SKILLS

- * Programming: Python (Learning), Java, OOPS Concepts
- * Database & Querying: SQL, PostgreSQL
- * Data & Reporting: Advanced Excel, Google Sheets, Data Cleaning, Data Validation, MIS Reporting
- * Tools & Technologies: GitHub, Microsoft Office Suite, Payment Systems (Razorpay, CCAvenue)

PROFESSIONAL EXPERIENCE

Data Operations Executive (MIS & Reporting) | MMHAP University (via GSC) | March 2023 - Present

- * Reconciled student fee data from online payment gateways (Razorpay, CCAvenue) with internal records
- * Prepared daily, weekly, and monthly MIS and finance reports using Advanced Excel
- * Performed data cleaning, validation, and consistency checks on financial datasets
- * Consolidated finance and operational data from multiple departments for management reporting
- * Developed Excel-based templates to improve reporting efficiency and reduce manual effort
- * Maintained structured digital records for accurate reporting and quick data retrieval
- * Verified financial records and reports to support internal and external audit requirements

Computer Programming Teacher | Decent Institute of Education | October 2022 – January 2023

- * Taught Java and C programming to 50+ students with a focus on logic building, problem-solving, and OOPS concepts
- * Conducted hands-on lab sessions for web technologies (HTML and CSS), guiding students to build their first portfolio websites

Office Admin | UHPL | March 2020 – January 2021

- * Created and maintained employee records in digital databases
- * Organized and scheduled meetings and appointments, supporting daily administrative operations

EDUCATION

- * Bachelor of Technology (B.Tech) in Computer Science and Engineering
Maulana Azad College of Engineering & Technology (MACET) | 2015 – 2019

PROJECTS & CERTIFICATIONS

- * Tic-Tac-Toe Game (Java) – Developed using OOPS concepts
- * Excel MIS Dashboard – Built using Pivot Tables and automated reporting
- * Data Analytics & SQL Certification – In Progress
